WHAT IS MATH SOLVER?

Microsoft Math solver app provides help with a variety of problems including arithmetic, algebra, trigonometry, calculus, statistics, and other topics using an advanced AI powered math solver. Simply write a problem on screen or use the camera to snap a math photo. Microsoft Math problem solver instantly recognizes the problem and helps you to solve it.

SOLVE EQUATIONS

After opening Math Solver, you can use the **selection tool to capture the math equation** you want to solve or enter it using the math keyboard.

After selecting the equation, click **'Solve'** to get solution. provides instant solutions and goes a step beyond, with **step-by-step guidance** using various problemsolving methods.

To view steps, select the problemsolving method and click **'Show** solution steps'

a = 4x + 5y = 6x + 7y = 3

4x+54=6

 $\times +7y = 3$

STEP-BY-STEP EXPLANATIONS

Get step-by-step explanations, see how to solve problems and show your work.

Get definitions for mathematical concepts

Scan and plot x-y data tables for linear/non-linear functions.

Instantly graph any equation to visualize the function and understand the relationship between variables.
